POS Integration 3.1 Release Notes

4/8/17

POS (point of sale) Integration is our one-of-a-kind technology that transfers data from many different systems into AutoVitals, in 30-120 seconds.

Fixes

- RO Writer server has more resources available for optimal processing and reduced risk of overload.

Additions

- Majority of Mitchell shops have been transferred to POS Integration v3.0 (new. more efficient processing).
- Onboarding of new Mitchell shops is fully automated, done within 24 hours after install on server.
- Automated testing of NAPA TRACS is nearly 100% ready for a stable transition to POS Integration v3.0
