

POS Integration 3.10 Release Notes

8/12/17

POS (point of sale) Integration is our one-of-a-kind technology that transfers data from many different systems into AutoVitals, in 30-120 seconds.

Fixes

- Some shops may have experienced vehicles not being closed out in AutoVitals at the correct times.
- Merging a vehicle created on tablet with the vehicle coming from the point of sale.
- Several rare instances of vehicles missing.
- Duplicate vehicle tiles, both showing the same RO#
- Capitalizing all words in someone's name (e.g. John & Linda Smith)
